

Gourmet Series

MODENA

There is room
for creativity

Cook from the heart
Create something extraordinary
Go beyond the stream

Don't go blunt.

There is room
for perfection

Enjoy every process
Add, reduce, make it better
Find your match
Discover your soul

Nothing taste bitter.

There is room
for satisfaction

Introducing MODENA Gourmet Series
—a refinement in cooking appliances
where design, technology and
materiality are carefully tested.
Giving your kitchen a bold new look,
simple yet elegant, powerful and
durable even in limited space.

Pure satisfaction.

Features

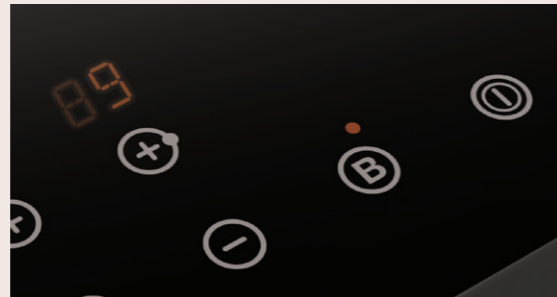

Induction Technology

A faster and more efficient cooking process using electromagnetic waves to heat up cooking utensils through direct induction.

Dual Cooking Zone

Highlight technology on cooktops reach maximum heat in few seconds, with dual cooking zone which can be activated when using larger pots and pans.

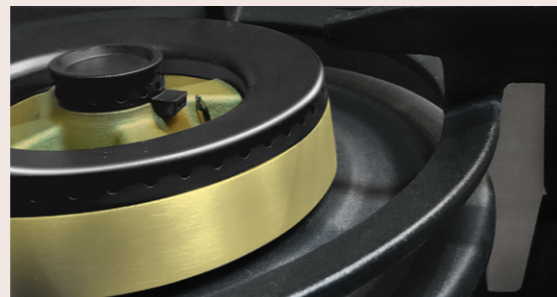

Booster Function

Enjoy faster cooking times with the Booster function, which boosts performance to optimal levels.

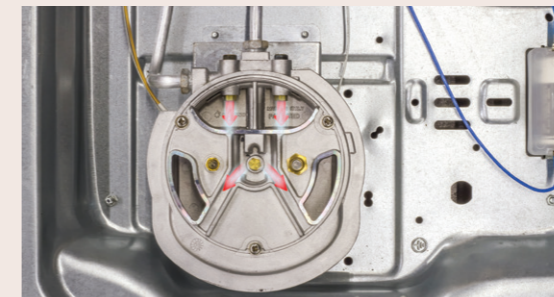

Gas Safety Technology

Ensures the safety of the cooker, as the thermocouple sensor immediately shuts off the gas flow once the cooking flame.

Full Brass Burner

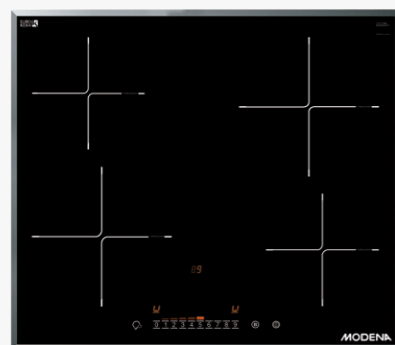

Burners are made of long lasting with full brass material, for better durability and heating performance.

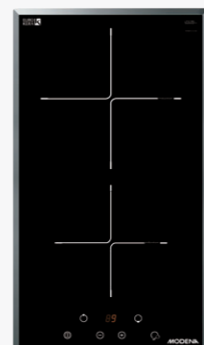

Triple Flow with EcoFlame

The Triple Flow Burner with two burner rings delivers a wide range of heat, from low heat for warming food to multiple flames with high heat of up to 5 kW.

Compact Series & Oven

Features

Combi Oven (Microwave + Electric)

This multifunction oven offers convenience to choose between the microwave, grill or convection oven function, depending on the meal that is being cooked.

8 Multifunction

8 different cooking functions with top, bottom, back heating and its various combination, adjustable in accordance with the dish that is being cooked.

Steam Function

Use the adjustable temperature steam function for healthy, oil-free cooking.

Auto Cooking Programs

Cooking a wide variety of dishes is easier than ever, with 12 automatic cooking program settings.

Convection Function / Fan

The convection oven function uses a fan to distribute heat throughout the oven cavity, resulting in evenly cooked food.

Stainless Steel Cavity

The oven cavity is made from food-grade stainless steel to ensure the food is safe from corrosion contamination.

Hood

Features

Downdraft Hood

This downdraft hood lifts up during use but is otherwise hidden below the kitchen work surface, keeping the cooking area clear for a modern streamlined look.

Smart Reminder

The smart reminder feature tells you when it is time to clean or change the carbon filter, for optimal hood performance.

Carbon Active + Vit-C Filter

A filter made of special materials impregnated with vitamin C, resulting in fresh and clean kitchen air.

Peritraction System

A more focused air suction design for faster ventilation, keeping the kitchen clean and smoke-free while you cook.

Germinator System

The germinator system distributes active ions that effectively eliminate germs and bacteria as well as cleans dirty air.

Oil Collector

Keeps the inside of the hood clean and makes maintenance easier by collecting the grease carried by the vapor in a special container.

Sink & Tap

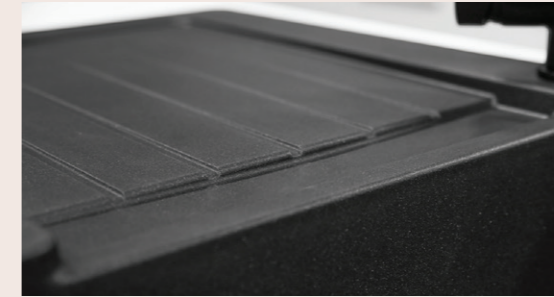

Features

Granitech

Strong granite quartz materials gives better durability, comfort and convenience for users, and is easily cared for.

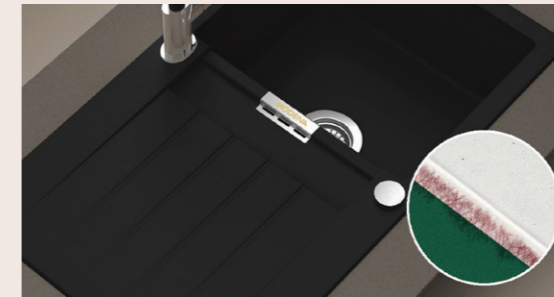

Easy to Clean

The ProHygenic Protection surface prevents dirt from sticking to the sink, keeps it easy to clean and odour-free.

4X Stronger

Protective layer on the sink bottom reduces the risk of long-term cracks and increases the impact resistance by four.

Powerganic

The granite quartz fibers are infused by special organic fibers to make the sink stronger.

Complete Pipes Installation

Equipped with complete pipe installation, including an 'S' pipe to prevent unpleasant odors from flowing back into the kitchen.

Flexible Body

Wash food, pots and pans with ease using this flexible tap, which can be angled in any direction desired.
